Property Description:

63,000 Sq. Ft. Plots

Dubai Industrial City, a Sama Dubai project, has embarked on the ambitious 500 hectare Dubai Industrial City development. Strategically located along Dubai's westerly border with Abu Dhabi, the development is destined to become Dubai's industrial business core.

Its diverse range of industrial-focused developments with a range of amenities will make Dubai Industrial City a self-contained city-within-a-city. It will be a unique and exciting place to live, work, and play.

The Dubai Industrial City site is situated immediately southeast of and with frontage along Emirates Road. The site is in close proximity to Jebel Ali Free Zone and Port, Dubai Investment Park, Dubai Techno Park, as well as the future Dubai International Airport site. The development will be well served by high order expressways and arterial roadways within close proximity to the site.

The master plan for the site provides a variety of land-uses, developed around the proposed Arabian Canal as a most visible landmark .
